

Inter-Community Telephone Co., LLC.

Crop Damage Worksheet

This portion is to be filled out by the Landowner or Tenant. After the project is completed, please return the completed worksheet to: ICTC– Attn: Plant Manager

Name: _____ Phone #: _____

Mailing Address: _____ Email Address: _____

SSN/EIN: _____

City, State ZIP: _____

Location Of Damage

	Quarter	Section	Township	Range
Location 1				
Location 2				
Location 3				

Quantifying the Damage

	Type of Crop	Linear Feet Damage	Price/Bu-lb-ton	Yield/Acre
Location 1				
Location 2				
Location 3				

Formula used to calculate loss

Calculation Example: Damaged linear feet (1,750') x 16.5 feet wide (industry standard), divided by 43,560 (square feet per acre), times fair market price (\$3.50) or contract price (please attach contract), times yield.

Example:

$$\frac{1,750' \times 16.5'}{43,560 \text{ sq ft}} = .66 \text{ acres damaged} \quad .66 \text{ acres} \times \$3.50 \text{ per bushel} \times 150 \text{ bushels} = \text{\$346.50}$$

This portion to be filled out by Inter-Community Telephone Co., LLC after construction

Inter-Community Telephone Co., LLC. hereby does agree to pay the sum of \$ _____ to the owner or tenant of said property in full and complete settlement of this claim.

Dated: _____ Signed: _____ Title: _____
